(Ed. 9/09)

Medco manages your prescription drug benefit for the 1199SEIU Benefit Funds.

This Preferred Drug List includes classes of widely used drugs that are preferred by the 1199SEIU Benefit Funds. These medications have been carefully selected to provide safety and value. If you receive any generic drug or preferred brand, you will have no out-of-pocket expense (except for GNY Benefit Fund and Rochester-area members, who may have small co-payments for certain brand-name drugs). However, if you get a nonpreferred brand when a preferred drug is available, you will be responsible for the difference in cost between the preferred and nonpreferred drugs. (Please note that this list is subject to change.)

Section II provides a listing of nonpreferred brands and their possible preferred alternatives.

SAFETY CONSIDERATION SYMBOLS

Here is a quick guide that explains our safety symbols. These symbols appear next to certain medications.

- ↓ A dose lower than the manufacturer’s guidelines is often recommended for people 65 and older.
- ▲ Use by people 65 and older is associated with increased risk; safer alternatives may be available. If used, the dosage should generally be lowered.
- ⚠ Weigh the risk of birth defects and other adverse outcomes.
- 🚫 Do not use during pregnancy.
